EPRI Survey Results 11 - 13

Please answer the following questions with a yes/no answer:

- Would you attend a follow up EPRI workshop on this theme at the end of Q1 2009?
- Would you recommend a colleague or friend to attend the next workshop?
- Do you have a better understanding of the respective roles of EPRI, UCA, NIST, DOE, Zigbee+HomePlug Alliance, and IEC Working Groups in establishing standards for interoperability in Smart Grids?

EPRI Survey Results 14-15

Please answer the following questions with a yes/no answer:

- Did you learn something new in this workshop that will help you make a bigger contribution to the Smart Grid standards development efforts?
- Did the presentations help you understand the gaps in technology and standards that need to be filled to have interoperable solutions?
